How do you want the Efeng Bacha Initiative to assist your entrepreneurship journey?

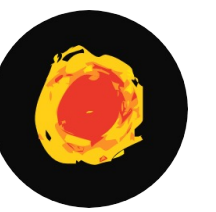

provide me a platform to network and connect with people that will help me through this journey. Equip me to be able to face whatever challenge that I will face as an entrepreneur.

How do you #ServeLikeMadiba?

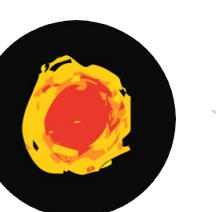

I realized that there are lots of opportunities out there, but most people are not sharing them. I have decided to share all opportunities I get from scholarships, youth summits, internships etc. You never know who might need that opportunity the most.

My advice is very simple. Do not wait for the government to solve the problems we are facing. Start initiating the change that you want. If you have an idea reach out to someone and make it a reality. You never know how many people are going to be positively impacted by your work.

What is the legacy you hope to leave one day?

I hope to leave a legacy of mindset change, it's time the youths started taking responsibility for the change they want and stop waiting for the government to do it.

What is your favourite Nelson Mandela quote?
