

Efeng Bacha 2021 - 2022

# Tatenda Nyamuzinga

**Where are you studying?**

University of Johannesburg

**How do you want the Efeng Bacha Initiative to assist your entrepreneurship journey?**

It would be great if Efeng Bacha organized many entrepreneurship workshops so that we could have a better understanding of how businesses work. I would appreciate it if the Efeng Bacha Initiative would consider connecting us with a mentor or coach who can assist us with growing our business. The organization can please us find sponsors for small businesses or investors for our companies whenever possible.

**How do you #ServeLikeMadiba?**

I participate in community engagement activities. I am part of a student volunteer program, which includes participation in organized outreaches targeting poverty, health, environment, education, sustainable development, and etc. As an individual, I work with children in a variety of settings, such as at local libraries, neighbourhood centres, sports clubs, and after-school tutoring programs. Remove trash from the side of the road, the banks of rivers, streams, and lakes.

**As a #legacyleader, what is your advice to the children and youth of our nation?**

We are the youth and children of South Africa, and it's time we take education seriously. We need to acquire the necessary skills and knowledge that will enable us to succeed. We have the opportunity to create jobs for one another if we become entrepreneurs. Since we are the future leaders of tomorrow, we should try and make the world a better place. We should abstain from substance abuse and teenage pregnancy, and focus on important aspects of life. It would be much better if we cut down on substance abuse and focused on important aspects of life. Rather than blaming our government, we should be more active in helping them by offering solutions and ideas to improve the country. We should innovate to improve our economy.

**What is the legacy you hope to leave one day?**

I seek to influence the lives of my fellow citizens in a positive manner, even if it's not financially possible, I want to leave a mark by giving them good guidance that will lead to better opportunities in the future. Through my business, I hope to create employment opportunities for future generations to help them avoid experiencing the hardships we are experiencing currently.

**What is your favourite Nelson Mandela quote?**

"Real leaders must be ready to sacrifice all for the freedom of their people."

"Do not judge me by my successes, judge me by how many times I fell down and got back up again."
