How do you want the Efeng Bacha Initiative to assist your entrepreneurship journey?

The Efeng Bacha programme is the perfect platform for collaboration and networking with vast stakeholders that would want to uplift the entrepreneurship mandate of the youth wing that would help an entrepreneur like myself get access to some big Corporates that might require my Oil services and products. Mentorship will also be an integral part of the process as well.

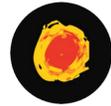

How do you #ServeLikeMadiba?

I serve like Madiba through embodying his vision and traits that he had left for us to follow and fulfil. This in practicality for me includes addressing social ills and uplifting young people around my community to strive for better but also to uplift themselves as way to restore dignity and wealth to the African child and generations to come.

As a #legacyleader, what is your advice to the children and youth of our nation?

The future is not yet written, we have the ability to write and shape the future we are going to live in and also leave for the future generations after us. It all starts with our conscience decision today to build the life and future we want, and also restoring dignity to Africa and us as African people.

What is the legacy you hope to leave one day?

I was able to make a difference in the lives of the African child as a black industrialist but also as an example of black excellence. Remembered for making an impact in people's lives wherever I set foot.

What is your favourite Nelson Mandela quote?

"There is no passion to be found playing small- in settling for a life that is less than the one you are capable of living"
